

## PACKAGING MACHINES SERVICE & SERVICE PLANS

***FASTech services a wide variety of Packaging Machines including VFFS, Stick Pack, Rotary Premade Pouch Fillers, Cartoners, Check Weighers and more.***

- Machine Set-Up & Start-up
- Routine Machine Maintenance
- Operator and Maintenance Team Training
- OEE Evaluations and Recommendations

***Prevent unplanned downtime and costly repairs during a crisis.*** FASTech Field Service Technicians will provide a report on the condition of your machine(s), make spare parts recommendations, and provide suggestions to improve system OEE.

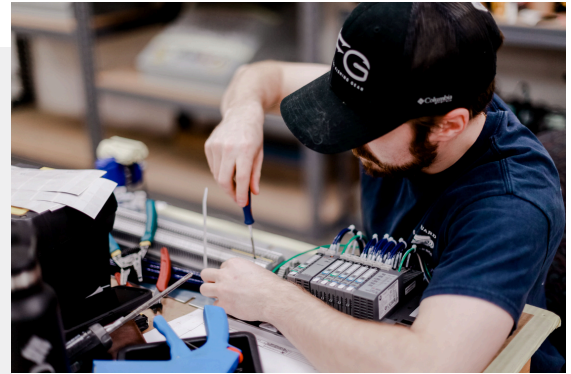

Two key factors contributing to downtime are keeping machine parts clean and providing proper and routine operator training. FASTech will help you with routine maintenance and training.

Service plans are tailored to your specific needs and based upon runtime, employee turnover, machine type, product type and any other factors that are unique to your production line.

***Contact us today for a service program tailored to your needs!***
